Art Unit: 2829

1. The following is an examiner's statement of reasons for allowance: the prior art does not disclose a probe station for probing a device under test having a combination of a support for holding said device under test, a probing device for testing said device under test while being supported by said support, a cable connecting said probing device to a test instrument. The cable includes a first conductor, a first dielectric, a second conductor, a second dielectric, a third conductor, first layer and second layer wherein the first dielectric, second dielectric, the first layer and the second layer are located in different arrangements among the first conductor, second conductor and third conductors for reducing triboelectric current generation within the cable. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
